

EXTRA-LIGHT ELEVATING WORK PLATFORM CAPACITY UP TO KG 150 SVELTLIFT 350

Code	CPS2101
Maximum working height (m)	3,50
Maximum platform height (m)	1,50
Basket dimensions (mm)	720 x 600
Overall area (mm)	985 x 700
Capacity (kg)	150 (1 operator + tools)
Maximum manual force	200N
Max suberabile slope	0 °
Max wind force	For indoor use only, 0 mph
Maximum wheel force (kg)	125
Sound pressure level	< 70 Dba
Dimensions with closed platform (mm)	985x700x1550
Weight (kg)	180
Unlimited lifting cycles	

ELEVATE WITHOUT CONSUMING

Without batteries and power sources, SVELTLIFT can be operated simply by turning a knob; in a few seconds, the patented lifting mechanism lifts the operator with a smooth movement to the desired working height. In the absence of batteries (subject to recharging and maintenance) and hydraulic oil, SVELTLIFT is a truly environmentally friendly solution.

Characterized by a compact footprint area and maximum ease of use, this purely mechanical solution does not require assembly, opening or climbing operations.

TECHNICAL FEATURES

- Intuitive to use: just turn the knob to lift
- Patented lifting mechanism, no power needed
- Lightweight, maximum maneuverability
- Small footprint area (985 mm x 700 mm)
- Unlimited lifting cycles, can be used 24/7
- Robust design to ensure optimal operation for years
- Minimal operating costs, potentially no maintenance required

Manual handling - Push (Indoor use)

- Working height: 3.5 m
- Applications: Laying of pipes, mechanical and electrical systems, cleaning. Painting. Retail trade, Maintenance of structures.

SECURITY FUNCTIONS

- Automatic brake when climbing into the basket
- Self-locking brake during lifting
- It lifts in the presence of the operator
- Self-protected lifting mechanism

IMPORTANT

The manufacturer is constantly engaged in research and development of products and reserves the right to make changes without notice. All data in this document are indicative. Some options or national standards can increase the weight. Specifications may vary to meet national standards or due to the addition of optional parts.

By virtue of continuous product improvements, the manufacturer reserves the right to apply specifications and / or changes to the equipment without notice.
