

GS/P AGILE PLUS S4 1185X555

THE AGILE SCALE PALLET TRUCK

GS/P Agile plus

Agile motorized pallet truck with weight indicator combines electric and manual function for convenient usability. Compact, light, simple and easy to use, it provides an accurate estimate of the weight of the load during the material handling process and is equipped with high quality features.

SCALE TRUCK GS/P

The GS/P pallet truck is an intelligent and robust tool to be used for weighing and transporting your loads at the same time, making stock and dispatch processes faster, simpler and more efficient. The machine can be equipped with supplements such as printer or USB and thanks to the 4 load cells it is able to be very precise and functional; ideal for checking incoming goods, avoiding overloads and determining shipping weights.

DISPLAY

Its large-sized 6 digits LCD display provides accurate and precise weighing in kg and lb. Its software allows not only net/gross/tare weighing but also unit counting, adding and totalling of multiple loads. Weights are shown in 1 kg/lb steps with 0,05% precision.

FRAME STRUCTURE

The structure is designed with a double frame consisting of a lower fork on which stands a counter fork. Both forks house two load cells allowing a uniform load distribution, and keeping high weighing accuracy even in case of collision and unbalanced load.

BATTERY and BATTERY CHARGER

The GS/P is supplied complete with rechargeable battery and charger. The battery module provides 50 hours autonomy.

PRINTER / USB / CE-M Approval (Supplement, only available at time of order)

Printer

As supplement, the machine can be equipped with a built-in printer, able to print gross, tare and net weights (kg or lb), date, quantity of pieces on the scale.

USB

It may also be enriched with another supplement, the USB, allowing you to store weighing data in a text file, for archiving and processing via PC.

CE-M Approval

Essential for selling by weight in legal for trade applications. The approved weight is expressed with a division equal to 1kg.

AGILE PLUS

The AGILE PLUS is equipped with a Li-ION powerful BATTERY 36V 12,8Ah and the ON BOARD COMPUTER with OLED display that supplies operator several information and the possibility to regulate the maximum travelling speed from 3,2 to 5,3 Km/h, adapting thus the operator experience to the specific application.

DOUBLE TRACTION WHEEL

The first pallet truck with two traction/steering wheels in the market. The big diameter (200mm) and tread (160mm) provide great stability without the needs of stabilizers. Non-marking rubbers grant great traction and comfortable usage on all applications.

LI-ION BATTERY

Long life 36V battery easy to remove for charging and continuous operation with the spare battery.

Two types of charger available (bench and wall mounted) with standard and fast charging time.

HIGH SPEED

The two motorwheels grant high performances and make the AGILE the fastest of the category. The AC technology and the soft non-marking rubbers make the AGILE an extremely quiet unit.

ELECTRIC / MANUAL SWITCH

The AGILE is equipped with a MANUAL SWITCH that can be used in the eventual case of low battery: electro brakes are released and the small friction created makes the AGILE as reliable as a standard pallet truck.

On order to move the unit in narrow space AGILE is equipped with TURTLE SWITCH to allow for operation with the tiller in vertical position on reduced speed.

ON-BOARD COMPUTER

Front OLED display with 6 selectable screens provides valuable info on truck activity and allows performance setup:

Pressing the central SCROLL button, operator can get information on:

- Battery status of charge (% of charge)
- Timers (total and partial in h)
- Odometer (total and partial in km)
- Speed setting (% of max speed)
- Diagnostic
- Error page

OPTIONS

- **Quicklift** hydraulic pump to lift the pallet in just two strokes
- Additional **battery** for continuous use
- **Fast charging** battery charger

- Certified **silent version** designed to strongly reduce the noise emission even on worse surfaces. This option is suitable for the usage on residential areas deliveries and in supermarket stores
